A photograph of a modern, multi-story building with a glass facade. The building is reflected in the glass panels. The sky is clear and blue. The text 'Family Values' is overlaid in large white letters on the lower part of the image.

Family Values

Founded in 1974

We started as a family business back in 1974.

Plastik Gogić employs today over 170 people, operates in more than 60 countries and specializes in the field of injection moulding of various plastic products.

The family-run business from the 1970s has developed into a serious organization whose **85% of revenue comes from the export activities.**

The basic principles remain the same: perseverance, flexibility, professional approach and social responsibility.

Plans

Our Mission

Plastik Gogić will continue to develop business by taking care of its employees, environmental protection and strengthening relationship with partners worldwide.

Total area more than 50000 m², production on 15000 m²

What do we produce?

There are four areas in which Plastik Gogić offers its products to the market.

The most important are plastic bins and waste containers, which are delivered to numerous partners around the world.

The company is also present in the field of sports, where we have specialized in the production of multifunctional flooring and stadium chairs.

In our product range you can find round vats of different sizes, as well as products for home, professional and industrial use.

Constant growth and development

From year to year, the company achieves exceptional results in terms of growth and development.

Production

Automated production process with state-of-the-art machines up to 5,500 tons of clamping force.

Certificates and awards

Plastik Gogić products are certified with EN 840, GS mark and other technical norms and standards, while management system is organized according to ISO 9001, ISO 14001 and ISO 45001.

We are proud to be awarded numerous prizes to recognize our social responsibility and dedicated work: Business Leader Award by Chamber of Commerce and Industry of Serbia, Probusiness Leader for best company in Serbia, October Award of Municipality of Indjića etc.

Ready to go!

Markets worldwide

We proudly announce another outstanding achievement – the company Plastik Gogic managed in 2021 to produce and deliver **record-breaking 1.000.000 bins and containers to customers in 60 countries worldwide.**

QUALITY

The quality of our products is best confirmed by the quality systems we have applied: ISO 9001, 14001, 45001, while for products from the group of waste disposal containers we have specialized certificates, such as the European standard EN 840.

Quality comes first

The company Plastik Gogić has also formed a laboratory in which the properties of our products are examined and tested.

Experts guarantee safety and longevity, and the growing number of companies we work with is proof that we are on the right track.

Finished product testing

Testing conducted in accordance to EN 840-5 norm simulate real life, extreme conditions.

Quality Control

Each sample is inspected in detail for strength and durability.

Fully automated testing process

Tensile strength, ductility, impact strength and many more parameters are constantly monitored

INNOVATION

Plastic Gogić is fully dedicated to development of new products, distinguished by their operational flexibility and creating new value for end users. In our own R&D department we are driven by the idea to provide our customers with reliable, attractive and user-friendly solutions.

All this is possible with great support from our partners' side – world's leading mould makers and manufacturers of other equipment in the field of injection moulding.

Your yard's best friend

plastic bins solutions

PLASTIC BINS WITH 2 WHEELS by Plastik Gogić include all components necessary for a cleaner and healthier environment in households, large factories and city streets.

Waste bins are made from HDPE (high-density polyethylene), which is ideal for waste disposal. Some superior properties of this exceptional material are: high chemical resistance, 100% recyclability, good impact strength, resistance to temperatures from -30°C up to +80°C, UV protected ...

Waste bin 60 L

✕ | Urban Series

Recycling inserts for waste sorting and gravity lock

Fastening clamps with seal

Colour Clip marking with Braille inscription

TECHNICAL DATA

Volume: 60 L

Dimensions: 445 x 522 x 935 mm

Weight: 8.5 KG (± 3%)

Max payload (load capacity):

* max loading weight 24 KG (±5%)

* max total weight 50 KG (±5%)

Wheels: 2 rubber wheels Ø200mm

Material: HDPE

Temperature resistant: -30°C to +80°C

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Reinforced comb receiver (honey-comb structure)
- Additional reinforcement on walls - form of curved surface
- Lip Handle - protects the touch point from dirt
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Gravity lock, triangular lock
- Noise reduction
- Recycling inserts for glass, paper or aluminium
- Marking: hot stamping, hot foil, labeling
- Fastening clamps with or without rubber seal
- Coloured clips for waste identification
- RFID Chip

Waste bin 80 L

✕ | Urban Series

Recycling inserts for waste sorting and gravity lock

Fastening clamps with seal

Plastic foot pedal

TECHNICAL DATA

Volume: 80 L

Dimensions: 445 x 522 x 935 mm

Weight: 8.2 KG (8.2 KG with pedal) (+/- 3%)

Max payload (load capacity):

* max loading weight 32 KG (+/-5%)

* max total weight 50 KG (+/-5%)

Wheels: 2 rubber wheels Ø200mm

Material: HDPE

Temperature resistant: -30°C to +80°C

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Reinforced comb receiver (honey-comb structure)
- Additional reinforcement on walls - form of curved surface
- Lip Handle - protects the touch point from dirt
- Axle bearing in the stack at the edge of container
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Gravity lock, triangular lock
- Noise reduction
- Recycling inserts for glass, paper or aluminium
- Marking: hot stamping, hot foil, labeling
- Fastening clamps with or without rubber seal
- Coloured clips for waste identification
- Foot pedal
- RFID Chip

Waste bin 120 L

✕ | Urban Series

Recycling inserts for waste sorting and gravity lock

Fastening clamps with seal

Colour Clip marking with Braille inscription

TECHNICAL DATA

Volume: 120 L

Dimensions: 480 x 555 x 954 mm

Weight: 8.2 KG (± 3%)

Max payload (load capacity):

* max loading weight 48 KG (±5%)

* max total weight 60 KG (±5%)

Wheels: 2 rubber wheels Ø200mm
(optional Ø250mm)

Material: HDPE

Temperature resistant: -30°C to +80°C

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Reinforced comb receiver (honey-comb structure)
- Additional reinforcement on walls - form of curved surface
- Lip Handle - protects the touch point from dirt
- Axle bearing in the stack at the edge of container
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Gravity lock, triangular lock
- Noise reduction
- Recycling inserts for glass, paper or aluminium
- Marking: hot stamping, hot foil, labeling
- Fastening clamps with or without rubber seal
- Coloured clips for waste identification
- Foot pedal
- RFID Chip

Waste bin 240 L

✕ | Urban Series

Recycling inserts for waste sorting and gravity lock

Honey-comb comb receiver

Colour Clip marking with Braille inscription

TECHNICAL DATA

Volume: 240 L

Dimensions: 580 x 740 x 1083 mm

Weight: 12.8 KG (± 3%)

Max payload (load capacity):

* max loading weight 96 KG (±5%)

* max total weight 110 KG (±5%)

Wheels: 2 rubber wheels Ø200mm

Material: HDPE

Temperature resistant: -30°C to +80°C

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Reinforced comb receiver (honey-comb structure)
- Lip Handle - protects the touch point from dirt
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Gravity lock, triangular lock
- Noise reduction
- Recycling inserts for glass, paper or aluminium
- Marking: hot stamping, hot foil, labeling
- Fastening clamps with or without rubber seal
- Coloured clips for waste identification
- Foot pedal
- RFID Chip

Waste bin 360 L

✕ | Urban Series

Recycling inserts for waste sorting and gravity lock

Honey-comb comb receiver

Colour Clip marking with Braille inscription

TECHNICAL DATA

Volume: 360 L

Dimensions: 596 x 880 x 1099 mm

Weight: 15.4 KG (± 3%)

Max payload (load capacity):

* max loading weight 144 KG (±5%)

* max total weight 160 KG (±5%)

Wheels: 2 rubber wheels Ø200mm

(optional Ø250 or Ø300mm)

Material: HDPE

Temperature resistant: -30°C to +80°C

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Reinforced comb receiver (honey-comb structure)
- Lip Handle - protects the touch point from dirt
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Gravity lock, triangular lock
- Noise reduction
- Recycling inserts for glass, paper or aluminium
- Marking: hot stamping, hot foil, labeling
- Coloured clips for waste identification
- Foot pedal
- RFID Chip

Waste bin 120 L

✦ | Standard Series

Foot pedal - Handles lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo- transfer / hot- stamping / tool embosing

TECHNICAL DATA

Volume: 120 L

Dimensions: 480 x 554 x 930 mm

Weight: 9 KG (+/- 3%)

Max payload (load capacity):

* max loading weight 48 KG (+/-5%)

* max total weight 60 KG (+/-5%)

Material: HDPE

Temperature resistant: -30°C to +80°C

Wheels: 2 rubber wheels Ø200

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Two-handle lid
- Chip nest

STANDARD COLORS (apx)

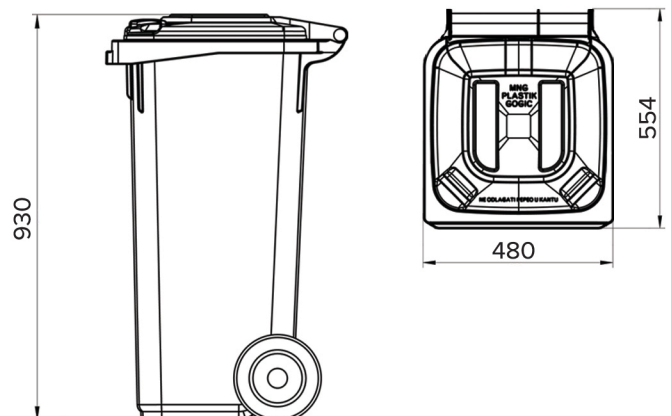

* Other colors on request.

OPTIONS

- Foot pedal
- Gravity lock, triangular lock
- Marking: hot stamping, hot foil, labeling
- RFID Chip

Waste bin 140 L PL

 | Standard PL Series

Recycling inserts for waste sorting

Foot pedal - Handles lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo-transfer / hot-stamping / tool embosing

TECHNICAL DATA

Volume: 140 L

Dimensions: 480 x 550 x 1060 mm

Weight: 9,6 KG (+/- 3%)

Max payload (load capacity):

*max loading weight 56 KG (+/-5%)

*max total weight 70 KG (+/-5%)

Material: HDPE

Temperature resistant: -30°C to +80°C

Wheels: 2 rubber wheels Ø200

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Lip Handle - protects the touch point from dirt
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Foot pedal
- Gravity lock, triangular lock
- Marking: hot stamping, hot foil, labeling
- Noise reduction
- Colored clips for waste identification

Waste bin 120 L

X | Premium Series

Recycling inserts for waste sorting

Foot pedal - Handles lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo-transfer / hot-stamping / tool embossing

TECHNICAL DATA

Volume: 120 L

Dimensions: 480 x 550 x 964 mm

Weight: 9,1 KG (+/- 3%)

Max payload (load capacity):

* max loading weight 48 KG (+/-5%)

* max total weight 60 KG (+/-5%)

Material: HDPE

Wheels: 2 rubber wheels Ø200

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Additional reinforcement on walls - form of curved surface
- Reinforced comb receiver (honey-comb structure)
- Lip Handle - protects the touch point from dirt
- Axle bearing in the stack edge of bin
- Foot board
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Foot pedal
- Triangular lock
- Marking: hot stamping, hot foil, labeling
- Noise reduction
- Colored clips for waste identification
- Recycling inserts
- RFID Chip

Waste bin 240 L

X | Premium Series

Recycling inserts for waste sorting

Foot pedal - Handles lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo-transfer / hot-stamping / tool embossing

TECHNICAL DATA

Volume: 240 L

Dimensions: 578 x 734 x 1080 mm

Weight: 12,80 KG (+/- 3%)

Max payload (load capacity):

* max loading weight 96 KG (+/-5%)

* max total weight 110 KG (+/-5%)

Material: HDPE

Wheels: 2 rubber wheels Ø200 (optional Ø250)

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Additional reinforcement on walls - form of curved surface
- Reinforced comb receiver (honey-comb structure)
- Lip Handle - protects the touch point from dirt
- Foot board
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Foot pedal
- Gravity lock, triangular lock
- Lip - Handle cover
- Marking: hot stamping, hot foil, labeling
- Noise reduction
- Colored clips for waste identification
- Recycling inserts
- RFID Chip

Waste bin 240 L H

X | H Series

Recycling inserts for waste sorting

Foot pedal - Handles lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo-transfer / hot-stamping / tool embossing

TECHNICAL DATA

Volume: 240 L

Dimensions: 585 x 740 x 1070 mm

Weight: 12,80 KG (+/- 3%)

Max payload (load capacity):

* max loading weight 96 KG (+/-5%)

* max total weight 110 KG (+/-5%)

Material: HDPE

Temperature resistant: -30°C to +80°C

Wheels: 2 rubber wheels Ø200

CHARACTERISTICS

- Galvanized, corrosion-free steel axle
- Additional reinforcement on walls - form of curved surface
- Reinforced comb receiver (honey-comb structure)
- Two handle lid
- Additional handle on the front wall
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Foot pedal
- Gravity lock, triangular lock
- Marking: hot stamping, hot foil, labeling
- RFID Chip

Containers and bins for bio waste

Organic bio waste originates from plant or animal sources and is predominately stored in bio waste containers. During the process of transformation into compost the existing juices evaporate, which lead to lower weight and volume of the organic waste.

TECHNICAL DATA

Waste bin with 2 wheels

Volume: 120lt, 140lt, 240lt

Material: HDPE

Color: brown

TECHNICAL DATA

Waste container with 4 wheels

Volume: 660lt, 770lt, 1100lt

Material: HDPE

Color: brown

FOLDABLE GRID FOR BIN

Made of plastic, without metal parts, attached to the body with 2 plastic hinges.

It separates the bio waste in 2 sections- the fluids drop down, while the dry content is kept above.

THE GRID IS HINGED ON AN AXLE SO THAT IT CAN BE LIFTED INTO A VERTICAL POSITION THUS:

Facilitating the collection process
Allowing washing of the bin bottom.

LATERAL HOLES

Enable air circulation for easier drying and reduction of unpleasant odours.

- * Optimal air circulation from the bottom to the top, maintaining an adequate oxygen level
- * Reduce gases, and thus the bad odours
- * Creates a favourable composting environment
- * Options: lid distance rubber cushion for additional ventilation

THE BIOFILTER LID "System Biologic TM"

Our 2-wheel bins from 60 to 240L can be upgraded with the Bio Filter lid. The filter contains active micro-organisms which degrade bad smell and initiate composting.

Note: The Bio Filter should only be mounted on bins without lateral holes.

Part of city pulse

plastic bins solutions

Plastic containers with 4 wheels

Plastic waste containers are made of high density polyethylene according to the European standard EN-840, environmentally friendly production, resistant to temperature, chemicals and UV radiation. Containers are recyclable.

Plastic container 660 L with flat lid

 | Premium Series

Recycling inserts for waste sorting

Foot pedal - Handless lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo-transfer / hot-stamping / tool embossing

TECHNICAL DATA

Volume: 660 L

Dimensions: 1370 x 778 x 1228 mm

Weight: 38 KG (+/- 3%)

Max payload (load capacity):

* max loading weight 264 KG

* max total weight 310 KG

Material: HDPE

Temperature resistant: -30°C to +80°C

Wheels: 4 rubber wheels Ø200

CHARACTERISTICS

- Galvanized, corrosion-free metal parts
- Reinforced comb receiver (Honey-comb structure)
- Additional reinforcement on walls - form of curved surface
- Lip Handle - protects the touch point from dirt
- Plug at the bottom
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Side receivers; side handles
- Gravity lock; triangular lock
- Foot pedal
- Recycling inserts for glass and packaging
- Marking: hot stamping, hot foil, labeling
- RFID Chip

Plastic container 770 L with flat lid

 | Premium Series

Recycling inserts for waste sorting

Foot pedal - Handless lid opening

Locking system: Manual lock / Gravity lock
*Other options on request

Marking: labels / thermo-transfer /
hot-stamping / tool embossing

TECHNICAL DATA

Volume: 770 L

Dimensions: 1370 x 778 x 1365 mm

Weight: around 40 KG (+/- 5%)

Max payload (load capacity):

* max loading weight 308 KG

* max total weight 360 KG

Material: HDPE

Temperature resistant: -30°C to +80°C

Wheels: 4 rubber wheels Ø200

CHARACTERISTICS

- Galvanized, corrosion-free metal parts
- Reinforced comb receiver (Honey-comb structure)
- Additional reinforcement on walls - form of curved surface
- Lip Handle - protects the touch point from dirt
- Plug at the bottom
- Chip nest

STANDARD COLORS (apx)

* Other colors on request.

OPTIONS

- Side receivers; side handles
- Gravity lock; triangular lock
- Foot pedal
- Recycling inserts for glass and packaging
- Marking: hot stamping, hot foil, labeling
- RFID Chip
